GIVE ONE OF THESE COLLECTIONS TO A FRIEND!

Flowers make the most beautiful gift in the world. A bunch of flowers will last only a few days—but flowers growing in your friend's garden will last all summer and will be a constant reminder of your friendship.

For 35c you can make a gift of seeds that will produce flowers worth many dollars. Other Collections of easily grown flowers are illustrated in colors on inside-back and back covers of this book.

Our Guarantee

We guarantee the safe arrival of all Seeds, Bulbs or Roots shipped by us.

And we guarantee to refund the full amount paid us for Seeds, Bulbs or Roots if you are not satisfied with results.

WM. HENRY MAULE CO.

1877 Maule's Golden Anniversary 1927

FOR Fifty Years Maule Seeds have been honest Seeds, which are absolutely essential for a successful garden. No matter how intelligent, or industrious, or able the farmer or gardener may be, he cannot grow good crops with poor seed.

Maule Seeds cannot be purchased in stores, nor have we any agents or salesmen. You buy direct from us; you do not pay any middleman's profits; you get the benefit of our low prices for the highest bred seeds it is possible to produce. Why, then, pay as much for seeds of ordinary quality, elsewhere, when you can so easily get Maule's?

The Maule policy has always been to sell the very highest quality at the very lowest prices; on this point we challenge all competition.

All Maule Seeds, Bulbs and Roots are scientifically and thoroughly tested for active, abundant and vigorous life. Only the most virile product is shipped. That is why Maule Seeds produce the greatest number of plants and the finest, biggest and healthiest blooms and specimens.

Everything we sell is Guaranteed with a Money-back Bond. If you are dissatisfied in any way with your results, we will refund your money without quibble, question or delay.

In celebration of our Golden Anniversary, we are making some offers that are unusually liberal. These offers are explained in the following pages. They will interest you greatly.

You cannot plan your garden too early. The sooner you do your planning the more pleasing your results will be. Plan now; get your seeds now. Remember that back of every Maule Seed, Bulb and Root is a reputation of 50 years square dealing.

Ours is one of the oldest and biggest Seed Houses in America.

HOW TO ORDER

THE following suggestions are to insure the prompt and accurate filling of your order. Always, when possible, use the order blank which accompanies this catalog. Be certain to write plainly your full name and address each time you order. Always order by the same name. If you live on a Rural Route or have a Post Office Box, give the number. If goods are to be shipped by freight or express, mention the name of your railroad station.

How to Remit: All remittances should be made by money order, bank draft, registered letter or personal check. We accept currency and U. S. Postage Stamps, but are not responsible for such

remittances if they are lost. We cannot accept foreign postage stamps. On all orders of \$1.00 and more, we will pay the cost of your money order or registered letter; the amount may be deducted from your remittance.

Transportation Charges: We prepay all transportation charges on practically everything we sell; the only exception being on Seeds, Bulbs and Roots listed not prepaid. If these goods are wanted by parcel post, the amount of the postage should be added to your remittance. Your postmaster, or rural carrier can tell you the parcel post cost.

MAULE'S HYBRID POPPIES

The distinctive features of these new poppies are their size, their rare coloring and color combinations, and the pleasing crinkly appearance of their petals—not unlike fine crepe paper. Their double and semi-double flowers run from 2 to $2\frac{1}{2}$ inches in diameter, in pure white, pink, rose, salmon, salmon-orange, scarlet and crimson; also in lovely combinations of broad and narrow-banded white-edged scarlet and pink. These sturdy plants bear profusely during June and July, forming a beautiful early summer garden. Blooms cut in the early morning when half open will keep in water several days.

THE NEW MAULE RADISH

A delightful surprise to lovers of relishes—probably the *largest radish suitable for table use ever grown*. Has a slightly pinkish-tinted flesh as firm and crisp as that of the finest small size varieties. Its flavor is piquant and snappy, but not bitey. A fine looking round radish of an evenly colored rich scarlet. It has an excellent tap root, and an abundant amount of dark green foliage. Grown in good soil, the radishes will measure from $1\frac{1}{4}$ to $1\frac{1}{2}$ inches across. They will mature (depending upon growing conditions) in from 30 to 40 days after sowing seed.

MAULE'S SEEDS

"Once Grown—Always Grown"

ROCKINGHAM, N. C.
I have used Maule's Seeds for fifteen (15) years and have found None Better.

MRS. ROSA KNIGHT

EXCELSIOR, MINN.
I am sending you my fortieth (40th) yearly order and I wish to say that in the forty (40) years I have found your seeds to be all that I could expect or wish. They have always proven to be of high vitality and true to name.

E. G. E. REEL

WALES, MASS.
In my thirty-five (35) years of dealing with you, I have found you an honorable firm to buy seeds of.

C. M. GALE

Our biggest asset is the Good Will of our customers

I want to thank you very much for your quick adjustment in my order; your kindness is very much appreciated. It is indeed a pleasure to deal with a firm which you know will always give you a square deal.

C. ROUN

You take no chances by Planting Maule's Seeds

NORTH SALEM, IND.
After being stung with bad seed from different places for a number of years, I decided to try Maule's. Every seed grew. I can truthfully say I have a real garden at this time. Be sure to send me your new Seed Book.

W. T. WALKER

SKAGWAY,
ALASKA
I sent an exhibit of Asters, grown from Maule's Seeds to the Territorial Fair last September and brought home first and second prizes over all other exhibits. There was strong competition.

C. O. WALKER
(The most northern florist in the world)

EAST NORWALK,
CONN.
I purchased practically all my seeds from you last year and the results were so pleasing, I want to thank you for such excellent seeds.

You may consider me a satisfied customer from whom you may expect my future orders.

Yellow-Podded Beans. A packet will sow about 25 feet of row; use 1 pound to 100 feet, 60 pounds to the acre.

17 Maule's Golden Carmine Wax A bush bean of the Dwarf Horticultural type. The strong growing plants grow upright, very productive, producing very large flat pods of golden yellow color, splashed with carmine. Ready for the table as a snap bean in 50 days, as a shell bean about 10 days later. The pods are entirely stringless and tender at all stages of growth, making it very desirable as a snap bean.
Packet 10 cts.; $\frac{1}{2}$ pound 25 cts.; pound 45 cts.; 5 pounds \$1.75, postpaid
Not prepaid, 5 lbs. or over at 27 cts. per lb.; 100 lbs. \$24.00

23 Sure-Crop Stringless Wax While it resembles the well-known pods and bean, it is in no way related to this variety, but is entirely different in quality, tenderness, and is stringless at all stages of its development. Produces pods in 45 days, which average 5 inches long, are flat, thick and meaty. The plants are very thrifty and hardy, resisting blight admirably and stand a remarkable amount of dry weather.

Packet 10 cts.; $\frac{1}{2}$ pound 25 cts.; pound 40 cts.; 5 pounds \$1.50, postpaid
Not prepaid, 5 lbs. or over at 25 cts. per lb.; 100 lbs. \$22.00

27 Maule's Improved Butter Wax One of the best and handiest general purpose wax beans. Its pods are straighter, more uniform in color and size, more attractive than any other wax sort and fully as productive. Snap pods very uniform in size, long to medium, very straight, round medium yellow, extremely brittle, absolutely stringless, without fiber and of excellent quality. The yellow pods are ready for use in about 40 days and are borne equally above and below foliage, never colored or splashed. In addition to the above, this bean is one of the earliest wax sorts and is rust-proof and free from disease attacks and all in all is unsurpassed.

Packet 15 cts.; $\frac{1}{2}$ pound 30 cts.; pound 50 cts.; 5 pounds \$2.00, postpaid

Not prepaid, 5 lbs. or over at 33 cts. per lb.; 100 lbs. \$30.00

32 Maule's Profusion Wax The plants are literally covered with handsome pods which are round, of good size, full of meat, brittle and stringless. Producing its pods in 48 days, and continues in bearing a long time. A home garden sort.

DWARF OR BUSH LIMA BEANS

A packet will plant about 25 feet of row; use 1 pound to 100 feet, 25 to 30 pounds to the acre.

58 Fordhook Bush Lima Fordhook produces a strong, erect, true bush-like growth (never prostrate or running). The foliage is of heavy texture and very dark green in color. The stalks that produce the blossoms are thrown out from the lateral and main stalks; the pods are borne in "clusters" of from four to eight. The pods measure from 4 to $5\frac{1}{2}$ inches long, about $1\frac{1}{4}$ inches wide, by as much as three-fourths of an inch thick. The pods contain three to five large beans with an average of four. Maturing in about 80 days.

Packet 10 cts.; $\frac{1}{2}$ pound 30 cts.; pound 50 cts.; 5 pounds \$2.00, postpaid
Not prepaid, 5 lbs. or over at 28 cts. per lb.; 100 lbs. \$25.00

60 Improved Fordhook Green Seeded Bush Lima

This decided improvement of Fordhook Bush Lima is so fixed that it will supersede that sort either for the home garden or market. Its strong, erect, true bush-form plant produces a thicker growth of dark green foliage, protecting the blossoms and pods from direct sun. The larger and plumper pods are produced in clusters of from five to eight. Each pod contains four to five thicker, more meaty, and plumper, always green beans. Improved Fordhook Bush Lima yields a very heavy crop in about 80 days, just as early as the original stock.

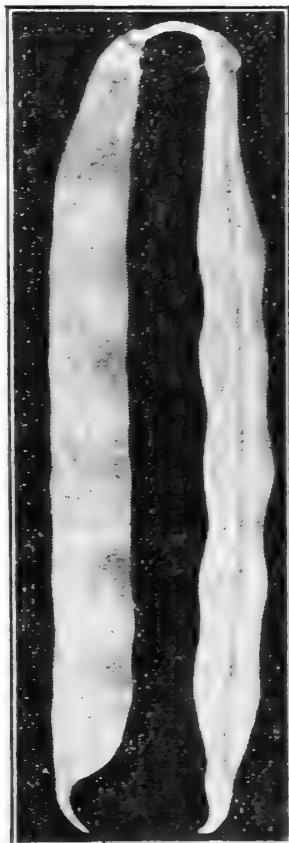

Packet 15 cts.; $\frac{1}{2}$ pound 30 cts.; pound 55 cts.; 5 pounds \$2.25, postpaid
Not prepaid, 5 lbs. or over at 30 cts. per lb.; 100 lbs. \$28.00

64 Burpee's Improved Bush Lima This bean produces a magnificent crop of pods which measure from 5 to 6 inches long by $1\frac{1}{4}$ inches wide. Compared with Burpee's Bush Lima, both pods and beans are much larger, while the beans, either green or dry, are nearly twice as thick. The sturdy bushes are loaded with pods that are truly enormous in size. The luscious green beans, ready for use in about 85 days, are much larger than any bush lima.

Packet 15 cts.; $\frac{1}{2}$ pound 30 cts.; pound 50 cts.; 5 pounds \$2.00, postpaid
Not prepaid, 5 lbs. or over at 28 cts. per lb.; 100 lbs. \$25.00

CABBAGE—Late or Winter Varieties

124 Danish Round Head In this strain we have very large, solid heads on short stems, produced in 110 days, having the same keeping quality as the original strain of Danish Ball Head, so widely known. It is 10 days to 2 weeks earlier and produces a larger yield than any of the so-called Danish cabbages. It is especially valuable for high, dry land, producing good sized heads where other strains would be too small. For shipping in the late fall or winter there is no finer cabbage.

Packet 10 cts.; ounce 30 cts.; $\frac{1}{4}$ pound 85 cts.; $\frac{1}{2}$ pound \$1.50;
pound \$2.75; 5 pounds \$12.50, postpaid

125 Danish Ball Head

Danish Ball Head cabbage produces its crop in about 120 days. It is sure to head, the heads being round, hard and extremely heavy, though not extra large. It can be grown in close quarters on account of its compact habit. As to its keeping qualities, it comes out of the pit in March or April as fresh as when put in, and with no waste. It is popular in the markets of all the large cities. Our seed of this popular cabbage comes to us direct from the best growers in Denmark.

Packet 10 cts.; ounce 30 cts.;
 $\frac{1}{4}$ pound 85 cts.; $\frac{1}{2}$ pound \$1.50; pound \$2.75; 5 pounds \$12.50, postpaid

130 Pe-Tsai Chinese Cabbage

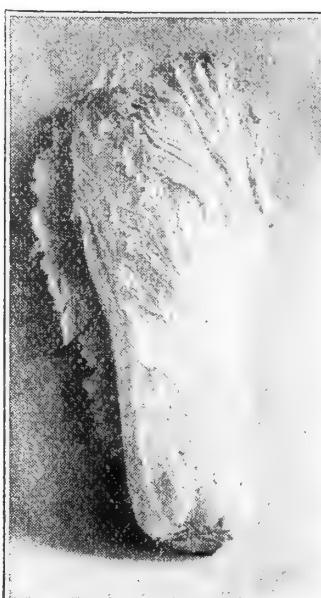

Chinese cabbage is so easily grown that it should be in every garden. It is a dainty table vegetable either shredded as slaw, cooked as other cabbage or trimmed to be eaten as celery. It should be sown early for Spring use, or grown like late cabbage planted in July or August for Fall use. When bleached it is almost clear white, and is very crisp and tender. Grows very quickly, being ready to eat in 60 days.

Packet 10 cts.; ounce 30 cts.; $\frac{1}{4}$ pound 85 cts.; $\frac{1}{2}$ pound \$1.50; pound \$2.75;
5 pounds \$12.50, postpaid

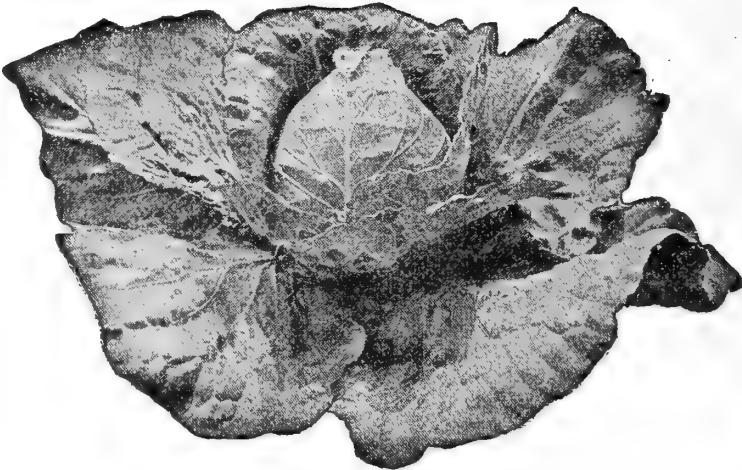

131 Maule's Genuine Surehead

The Surehead is the greatest and most profitable cabbage ever introduced, that has, for such a long term of years, maintained so wide a popularity. Maule's Surehead is a late variety with head as large as Maule's Prize Flat Dutch. Ready to cut in 110 days. The heads are firm and hard, elegant for kraut.

175 Maule's Golden Self-Blanching XX Selected

French Grown Original Dwarf Strain. Our XX Selected French Grown Golden Self-Blanching celery is absolutely the best strain of this variety that we know. It is as true to type as any variety on the market. In quality it ranks with the highest. It is dwarf to half dwarf, growing 18 to 20 inches in height, wonderfully stocky, very heavy, perfectly solid, of delicate flavor and a very good keeper, ready for the table or market in 110 days. Added to these points is its great distinctive feature of being literally self-blanching.

SWEET CORN

A packet will plant about 100 feet of drill; $\frac{1}{2}$ pound for 300 feet; 12 $\frac{1}{2}$ pounds per acre.

205 Maule's Colossal Early

The finest large eared Sugar Corn in existence. The first real rival of the Shoe Peg or Country Gentleman, as large as Stowell's Evergreen, and of delicious flavor. Frequently matures fine large ears ten weeks from planting. Maule's Colossal matured a crop in 70 days. It is the most delicious sugary corn you have ever eaten; the large early ears average from 7 to 9 inches in length, and frequently 2 $\frac{1}{2}$ to 3 inches in diameter, with 12 to 14 rows of large sweet kernels that fairly melt in your mouth; stalks grow from 6 to 7 feet tall.

Packet 15 cts.; $\frac{1}{2}$ pound 25 cts.; pound 45 cts.; 5 pounds \$1.75, postpaid
Not prepaid, 5 lbs. or over at 28 cts. per lb.; 100 lbs. \$25.00

206 Maule's Ideal Early

We have produced in this early corn a variety which stands alone as a money maker. It has the power of germination under conditions where all others have failed, and can safely be planted much earlier than any true sugar corn on account of its extreme hardiness. It adapts itself to any kind of soil, either sand or heavy clay. It is as large as Stowell's Evergreen. The fodder grows 6 feet high. In earliness, any one growing this pearly white corn will have the crop marketed and the money in his pocket before any of the early sugar corns are ready. Matures in 55 days.

891 Maule's Extra Lawn Grass Mixture

A beautiful, smooth, low growing evergreen grass for the yard or lawn

This mixture will insure a beautiful, compact, evergreen sod on any lawn where the essential requirements of grass culture have been complied with. Its component parts are the grasses peculiarly adapted to lawns and door yards, including choice selected strains of Kentucky Blue, etc., along with the best known creeping or sod-forming sorts. We have included a little white clover in the mixture, regarding it as essential, but will omit it on special request. Nothing better can be purchased on the American market, no matter what claims may be advanced by other seedsmen. Grass seed can be sown any time between April and September. Use 1 pound to 300 square feet of ground or 20 pounds (bushel) will sow a plot 100 feet wide and 108 feet long, or 100 pounds (5 bushels) per acre.

1/2 pound 35 cts.; pound 60 cts.; 3 pounds \$1.65, postpaid
Not prepaid, 3 lbs. \$1.35; 5 lbs. (peck) \$2.00; 20 lbs. (bushel) \$7.50

884 Quick Results Lawn Grass

A rapid growing velvety green grass

This mixture is for producing an immediate green-sward that will be followed by a good, permanent sod. It is especially recommended for late spring seeding. It will make rapid growth, and will be ready to cut two weeks in advance of any other mixture which we offer, nor is it lacking in permanence.

1/2 pound 35 cts.; pound 60 cts.; 3 pounds \$1.65, postpaid
Not prepaid, 3 lbs. \$1.35; 5 lbs. (peck) \$2.00;
20 lbs. (bushel) \$7.50

886 Maule's Steep Slope Lawn Grass

A lasting grass for embankments and terraces

This is for banks, terraces, steep or exposed slopes and bare spots in general; in fact, for any place, however dry, stony or barren. It will produce a sod that is absolutely proof against heat or drought, and that cannot be injured by cold.

1/2 pound 40 cts.; pound 75 cts.; 3 pounds \$2.10, postpaid
Not prepaid, 3 lbs. \$1.65; 5 lbs. (peck) \$2.50;
20 lbs. (bushel) \$9.50

Customers may order half pecks at the peck rate; half bushels at the bushel rate

Maule's Three Permanent Pasture Mixtures

Best adapted for producing an abundant hay crop or for pasturage

It is true beyond all question that a mixture of grasses produces a better mowing field and subsequent permanent pasture than a mere combination of timothy and red clover. The former will last five times as long as the latter. We vary the proportions to suit the different soils. Use at the rate of 60 pounds (3 bushels) per acre.

Mixture for Light and Sandy Soils; Mixture for Average Soils, Mixture for Heavy Soils

Any of the above Permanent Pasture Mixtures; Not prepaid, 5 lbs. (peck) \$1.50; 20 lbs. (bushel) \$5.50;

74B99 SURPRISE COLLECTION

75 Bulbs only \$2.00

All Properly Labeled
For Delivery after May 1

The supply of some of our Bulbs is exhausted before our selling season is over, while large quantities of other varieties are left on hand, for it is practically impossible to sell out all.

Rather than replant these "left-over" bulbs, we will put them up in "Surprise Collections," 75 bulbs in each collection, and offer the collection for only \$2.00, postpaid.

These collections will be entirely of our selection, from varieties of which we have a surplus. All bulbs will be of first-class quality, properly labeled. Orders will be filled in rotation as received, after May 1. The first orders will get the best selection, although all orders will receive more than twice the catalog value.

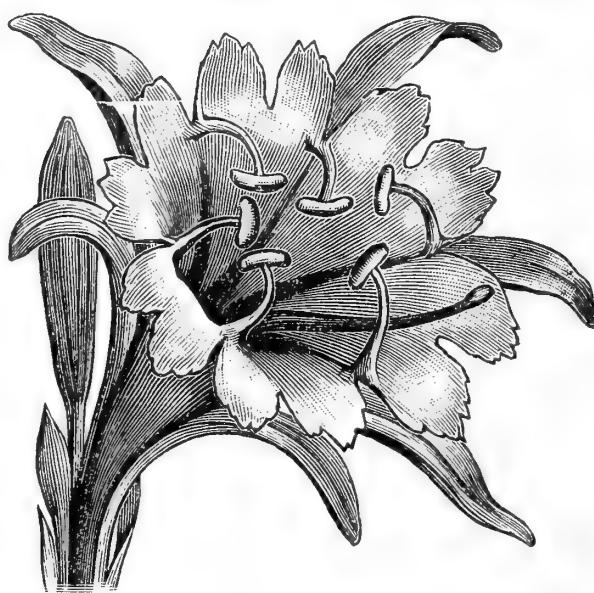

It is to your advantage to order this collection Early. At such a low price, no collection of surplus bulbs will be made up for less than \$2.00.

The Canna is the King of Bedding Plants

Maule's Large Flowering Cannas

For bedding purposes, Cannas stand at the head of the list. No more satisfactory plant could be found; they succeed in all parts of the country, in any kind of soil, but will, of course, do better in rich soil, and if freely watered at all times.

The newer types have flowers six to eight inches across, in great clusters of varied and rich colors. We send out dormant roots in strong divisions from field-grown clumps. The height given for each Canna may vary with climate and care.

Maule's Four Most Popular Cannas

75B75 The President

The rich, glowing, immense, rounded flowers, 7 inches across when open, are so surpassingly fine that no other red Canna can compete with the "The President." The flowers are most attractive, produced on strong, erect stalks well above the large, rich green foliage, which grows about 5 feet high.

30 cts. each; 3 for 80 cts.; 6 for \$1.50;
\$2.75 per dozen, postpaid

75B29 Eureka

Green foliage. The best white flowering Canna yet introduced. The immense clusters of flowers are borne well above the foliage. Should be in every garden. Exceptionally free flowering. Grows 4½ feet high.

30 cts. each; 3 for 80 cts.; 6 for \$1.50;
\$2.75 per dozen, postpaid

75B50 King Humbert

Immense heads of Orchid-like flowers measuring from 6 to 8 inches across; velvety orange-scarlet, rose-tinted and margined at the base. Foliage a rich, dark bronzy chocolate, wide and luxuriant; a combination of leaf and blossom, incomparably beautiful. Grows 4 to 5 feet high.

25 cts. each; 3 for 70 cts.; 6 for \$1.30;
\$2.50 per dozen, postpaid

75B15 City of Portland

3½ feet. Green foliage. The finest all-around pink Canna, of its class, introduced to date. The color is a beautiful, glowing pink; the flowers are produced in the greatest profusion.

30 cts. each; 3 for 80 cts.; 6 for \$1.50;
\$2.75 per dozen, postpaid

Maule's Extra Fine Mixed Gladiolus

A superior selection of the best large flowering varieties, many of which are high priced and if sold under name would cost many times what we are charging for them in mixture. We know this to be as good a mixture as you can buy, being made up of a wide range of colors, from the richest red to the most delicate white and pastel shades. We offer these bulbs at very moderate prices so that you may obtain a large quantity of them in order to get a greater variety of colors.
